Digital Try-On Experiences

Help customers see themselves in the piece before approval.

OVERVIEW

Let customers virtually try on their own CraftsmanAI-created jewelry item during the render output stage or through customer share links. The experience makes design review more immersive, personal, and confidence-driven whether the journey begins online or inside the store.

KEY CAPABILITIES

- Virtual try-on at the render output stage
- Available through customer share and approval links
- Supports both in-store and online customer journeys
- Helps customers preview their own custom-created piece
- Creates a more immersive, premium approval experience
- Builds emotional connection and purchase confidence

BEST FOR

Retailers offering custom online and in-store, especially teams that want to reduce hesitation during design review.

WORKFLOW IMPACT

Render preview -> personal try-on -> clearer approval decision.

Available with an active CraftsmanAI subscription. Rollout and implementation scope may vary.
